

A blurred background image of a classroom. A teacher in a light-colored sweater is standing at the front, and a student in a red and white striped shirt is sitting at a desk in the foreground, raising their hand. The text is overlaid on a white rectangular area in the upper right.

mibu

Program šolskega pohištva

School Furniture Program

Z veseljem vam predstavljamo našo proizvodnjo in linijo miz in stolov za šolo in svet izobraževanja, načrtovano in izdelano v Sloveniji.

Kovinske konstrukcije izdelujemo v našem proizvodnem obratu na goriškem, kjer gredo skozi faze rezanja, upogibanja in varjenja profilov, nato pa jih končno obdelamo s postopkom peskanja. Lesene dele iz vezane plošče izdelajo in sestavijo naši lokalni partnerji po naročilu.

Naša fleksibilnost nam omogoča, da izdelamo vsak element tako v različnih velikostih, kot tudi po načrtu naših strank.

We are pleased to present our production of desks and chairs for school and the world of education.

We manufacture the metal structures in our production plant in Slovenia, where we process both the cutting, bending and welding phases of the profiles, and then finish them with the hot powder coating process. The multi-layer wood elements are then manufactured locally by our partners and assembled on request.

Our flexibility allows us to produce each element both in different sizes, but also following the drawing provided by our customers.

Svarog

Nakladni stoli

Stackable chair

Naslonjalo: Bukova vezana plošča, debelina 8 mm, naravno lakirana.

Sedež: Bukova vezana plošča, debelina 8 mm, naravno lakirana.

Okvir: Cevni okvir iz jekla Ø 22 mm, narejen s hladnim upogibanjem in visoko odpornim neprekinjenim varjenjem žice. Ojačitvena palica pod sedežem. Končna obdelava s peskanjem po pranju in razmaščevanju kovinske strukture.

Stopala: Neodstranjiva stopala na koncih.

Backrest: Beech plywood, thickness 8mm, Natural varnished.

Seat: Beech plywood, thickness 8mm, Natural varnished.

Frame: Tubular steel frame Ø 22mm made by cold bending and high resistance continuous wire welding. Reinforcement flat iron bar under the seat. Powder coating finishing after washing and degreasing the metal structure.

Feet: Finned and unstrainable feet at the ends.

Pisalna površina: Vezana plošča iz breze je na obeh površinah prekrita z laminatom s površinsko zaščito pred praskami v skupni debelini 22 mm, oblikovana po evropskih standardih za preprečevanje nesreč z zaobljenimi robovi. Pritrjena na nosilno konstrukcijo s posebnimi vijaki.

Okvir: Konstrukcija iz jeklene cevi Ø 25 mm, ki povezuje noge z vodoravno jekleno cevjo Ø 22 mm. Končna obdelava s peskanjem po pranju in razmaščevanju kovinske strukture.

Stopala: Na koncih so neodstranljive plastične blazine, uporabne za zmanjšanje hrupa in zaščito kovinske konstrukcije pred korozijo.

Writing top: Birch plywood covered on both surfaces in laminate with anti-scratch finish in the total thickness of 22mm, shaped perimetrically with radius section according to European standards on accident prevention with rounded edges. Fastened to the supporting structure by means of special screws.

Frame: Structure made in steel tube Ø 25mm connecting the legs with an horizontal steel tube Ø 22mm. Powder coating finishing after washing and degreasing the metal structure.

Feet: Finned and non-extractable plastic feet at the ends, useful to attenuate noise and protect the metal structure from corrosion.

Dimensions and Reference standard UNI EN1729:

size 3 (Student height from cm.119 to 142) Desk cm. 70x50x59H.
size 4 (Student height from cm.133 to 159) Desk cm. 70x50x64H.

A chair version particularly suitable for schools, meeting rooms and working group meetings.

Dimensions:

63x72 H.85cm

General sales conditions

ART. 1 APPLICABILITY OF THE GENERAL SALES CONDITIONS

These general sales conditions, alongside any special sales term contained in the order confirmation, are applicable to the sale relation between ADT d.o.o. (hereinafter Company) and the Purchasing party (hereinafter Purchaser). These conditions form an essential and binding part of the contract and, in case of dispute, they will prevail over any other term described in the original order or annexed document. These conditions are intended as fully accepted by the Purchaser with the transmission of the order confirmation by the Company which states that: "The sale of products herewith confirmed is governed by the general sales conditions contained in the current price list".

ART. 2 PRICES

Prices indicated in the price list refer exclusively to the retailer's purchasing price. Prices are gross and do not include the Value Added Tax (VAT). The same prices are suggested as retail prices. Standard packaging of products is included in the price.

ART. 3 PRICE ADJUSTMENTS

This price list replaces and invalidates all previous editions. The Company reserves the right to modify prices and/or products listed in the price list without advanced notice. These adjustments are immediately applicable from the disclosure of the notice to the Purchaser.

ART. 4 TERMS OF DISPATCH OF THE GOODS

The risks of loss and/or damage of the goods are transferred from the Company to the Purchaser upon dispatch of the goods subject to the Sales Contract. If the Purchaser or carrier appointed by the Purchaser does not take immediate possession of the goods or if the Purchaser fails to provide timely pick-up instructions, any risk of damage and extra charges related to such delay are the Purchaser's responsibilities. Unless otherwise agreed in writing and indicated in the Order Confirmation issued by ADT d.o.o., products are delivered according to the term "Ex Work" (EXW, Incoterms 2010).

ART. 5 PAYMENT CONDITIONS

The price shall be paid by the Purchaser without any extra charges, according to the payment conditions stated in the order confirmation. Payment terms stated in the order confirmation, previously granted by the Company and agreed with the Purchaser cannot be modified in any way owing to a binding business credit insurance policy which does not envisage the possibility to grant any payment delay to accounts receivable. In accordance with the Slovenian law, interest on delayed payment, if any, is calculated and debited regularly or, in the case of small amounts, at the end of the Company's fiscal year. Should the Purchaser infringe the agreed payment terms, fully or even partially, the Company has the right to interrupt the dispatch of goods. In this case, the Purchaser loses his right to claim damages and related compensations and the Company retains the right to modify previously agreed payment conditions.

ART. 6 CLAIMS AND WARRANTY

In case of defects or non-conformity of the products related to the manufacturing process, the Company takes on the responsibility to replace the complete faulty product or singular defective parts. Complete documentation, including clear and detailed pictures showing the nature of the defect must be sent to the Company in written form, within eight days from receipt of the products. Failure to forward this notification implies that the Purchaser loses his right to claim the stated defects. Any complaint related to defects which are not visible after a careful inspection of the goods at the time of delivery (hidden defects) must be notified to the Company in written form within eight days from discovery of the defects and in any case not later than twelve months from delivery. Failure to forward this notification implies that the Purchaser loses his right to claim the mentioned defects. The warranty cannot be applied to defects related to incorrect assembly, improper use, failure to comply with the operating and maintenance instructions, everyday use or wear and tear. Claims not related to product defects will be taken into consideration only if notified in writing to the Company within eight days from receipt of the relevant invoice.

ART. 7 RETURNS AND REPLACEMENT POLICY

Claimed products cannot be returned to the factory unless previously requested and authorized in writing by the Company. The relevant products must be returned within 120 days from the date of the a.m. authorization, together with the relevant authorization form. Upon return of the claimed items, the Company carefully checks the condition of the goods and if the damages are not imputable to the Company, the claim is rejected and the replacement must be paid for. Should the goods be damaged during transport back to the factory because they are not duly packed in the original carton, or because the packaging material used to keep the goods in good condition during transport is missing, the Company shall have the right to charge the Purchaser with the necessary expenses to repair the goods or to refuse the returned goods. When the goods are returned, a corresponding credit note is issued. The amount of the credit note is based on the prices which appear in the original commercial invoice. The number and date of the invoice must be indicated in the authorization for the return of the goods. Replacements of the damaged goods are regularly invoiced. If the replaced goods are not returned within 120 days, the Company shall refuse to take them back and shall request full payment. Should the Purchaser fail to settle this payment, the Company has the right to suspend deliveries as indicated in the above art. 5. The Company does not allow to compensate the value of the returned goods with products scheduled for delivery.

ART. 8 RETENTION OF TITLE

The Company remains the sole owner of the goods until the corresponding amount is duly paid by the Purchaser, even if the goods have been transformed and/or modified after their delivery.

ART. 9 APPLICABLE LAW

This contract of sale is governed by the United Nations Convention on Contracts for the International Sale of Goods (CISG - Wien1980) and, with respect to issues not covered by this Convention, by the laws of Slovenia.

ART. 10 JURISDICTION

The competent law Courts of Nova Gorica shall have jurisdiction in any action arising out of or in connection with this contract. The Company is in any case entitled to bring his action before the competent court of the place where the Purchaser has his registered office or main business.
